

# TREC

TRANSFORM | REACH | ELEVATE | CONNECT

## WHY

At Sedalia 200 we believe all students deserve equitable access to rich learning opportunities with 21st Century skills in order to be competitive in our ever-changing world.

## WHAT

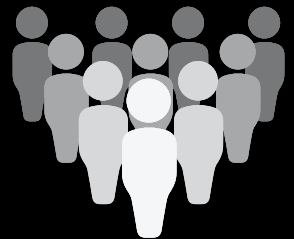

### TREC

is the process to **TRANSFORM** and **REACH** every student to **ELEVATE** and **CONNECT** their learning.

## WHO

All Smith-Cotton High School students will be issued a Chromebook.

Students will be allowed to take devices home. Devices must return to school each day fully charged and ready to be used.

## GOALS

- Increase student engagement
- Empower students to build 21st Century skills
- Develop problem solving skills related to real-world issues
- Promote meaningful collaborative team development

You can expect to hear your child talk about the changes with their learning. Homework, projects, teaching, and learning will all look different. This shift will generate a more student directed experience. This shift of future classrooms will look different from the classrooms you experienced.
