

# Sedalia 200 Bus Transportation Emergency Plan

If First Student experiences high absenteeism among its school bus driver team, Sedalia 200 and First Student will put this transportation plan into effect. This plan consolidates routes to allow First Student to transport students using fewer drivers/buses. Families should note that all of these community bus stops are different from standard daily bus stops; students may need to walk farther to be picked up/dropped off or families may need to drive their student to their designated stop. It also provides transportation for students who live 2 miles or more from their school; regular daily bus service picks up students who live more than 1 mile from their school.

Families whose students are too young to be dropped off without supervision (kindergarten and first grade) or who choose not to have their student walk home from the emergency plan bus stop should be at the designated stop at the time that their school dismisses. This will help buses get all students dropped off in a timely manner, as buses will be running multiple routes.

Students with special needs who qualify for transportation as a related service will continue to ride their bus as usual. These routes will remain the same with the same pickup and drop-off times. These are routes 130, 133 and 134. Loftus Early Childhood Center students also are not affected by the changes in this plan.

If students do not ride a bus on morning routes, they will not be eligible to ride home under this plan; families will need to arrange transportation home under this plan. We apologize in advance for any inconvenience.

As you review this plan, please note your student's pickup and drop-off location, as well as the pickup time and the bus number. The number will be displayed prominently in the front window of the bus. Pick the stop that is closest to your home or most convenient for you.
